DETAILED ACTION

Claim Objections

1. Claim 18 is objected to because of the following informalities: line 8, “a second enabling signal” implies a first enabling signal, but such is not positively recited. Perusing the specification, it would appear that a first, disabling signal is sent, followed by a second, enabling signal. Examiner suggests rewording the claim to avoid any potential confusion, for example, remove “first” and “second” entirely, or, positively recite “a first enabling signal.”

Appropriate correction is required.

Allowable Subject Matter

2. Claims 18 – 31 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record neither discloses nor fairly teaches the recited limitations of the claimed invention including, but not limited to: the method of communicating between a control unit and a plurality of detonators including a disabling signal generated by the control unit to disable communications between a first detonator and the control unit, and the first detonator enabling communications between the control unit and the second detonator, etc.; and, the system including a control unit, a communications bus connecting a plurality of detonators to the control unit, and also connected to the control unit by a daisy chain connection, wherein a first detonator enables communications between the control unit and a second detonator, the control unit and the second detonator using the communications bus.

Art Unit: 3641

4. This statement is not intended to necessarily state all the reasons for allowance or all the details why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).

Conclusion

5. This application is in condition for allowance except for the following formal matters:

See objection to claim 18 above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
